Blockchain Finance Implementation For Poverty Eradication and Metropolis Policies

2019 May 15th – 17th Conference Room XVIII, Geneva UN, Switzerland

Our work will accomplish the 1st and 2nd sustainability development goals of U.N. Agenda 2030. Furthermore, by preventing the problems of urbanization in the Global Civil Society, where the population moves to the large cities, it will help the policy-making and operation methods of Smart City which is prepared in each country.

In particular, we will learn how to apply survival money through MobiDollar, the world's common cryptocurrency that has already been presented in U.N. and developed. This conference will prepare benefits for participating nations and cities and be Global Governance.
